

SABIC Europe's Policy on QUALITY, SAFETY, HEALTH AND ENVIRONMENT

We are committed to conduct our activities in a manner that protects the safety and health of our employees, contractor employees, customers and the communities in which we operate as well as the integrity of neighboring facilities, company assets and the environment. It is our responsibility:

- to minimize the risks associated with our production activities and products and continuously improve their safety, health and environmental performance;
- to comply with customer expectations to enhance customer satisfaction.

We will accomplish this by:

- complying with applicable laws, rules, regulations and standards;
- developing and implementing business processes, practical standards and policies as described in our Management System;
- designing and managing our operations and our products to the best practical standards to minimize environmental and human health impacts, provide workplaces free of recognized safety hazards and comply with customer expectations;
- recognizing the importance of safety, health, environmental protection, process safety management and our customers' requirements where these aspects are in competition with economic factors;
- providing appropriate resources, professional staff and training to realize our objectives and to support safety, health, environmental protection, process safety management and customer satisfaction oriented programs;
- auditing the performance of our Management System and improving its effectiveness on an ongoing basis.

Boy Litjens
Chief Executive Officer
Managing Board SABIC Europe
